Senate Bill No. 205 Stormwater Discharge Compliance Form

On October 2, 2019 the Governor of California signed into law Senate Bill (SB) 205. This bill requires a person or entity who conducts a business operation that is a “regulated industry” to demonstrate enrollment with the National Pollutant Discharge Elimination System (NPDES) permit program. The goal of the program is to address the health and safety of drinking water sources statewide. By providing specified information on an initial or renewal City business license application, enrollment in the NPDES permit can be confirmed.

Compliance with SB 205 does not affect all businesses. Only those businesses with primary Standard Industrial Classification (SIC) codes that are identified by the State Water Board as requiring enrollment in the Industrial General Permit (IGP) are affected. The form below will guide you and the City in determining if your business requires enrollment in the IGP.

Completion and submission of this form is required with your 2020 business license application and/or renewal.

1	List physical address for entity or location conducting business. A separate SB205 compliance form is required for each business and location.	
2	For business locations outside the city limits of Turlock, provide location where business is <u>physically based</u>.	
3	Provide the primary Standard Industrial Classification (SIC) code for the business type at this location. Look up the SIC Code(s) at the website below and write the code(s) in the box to the right: https://www.osha.gov/pls/imis/sicsearch.html To find the code, search by keyword(s) (for example: metal recycling) OR request the SIC code from your insurance broker.	<hr style="width: 100%; border: 0.5px solid black;"/>
4	Do any of the primary SIC codes from question #3 (above) match any of the regulated SIC codes listed on the Water Board website below? https://www.waterboards.ca.gov/water_issues/programs/stormwater/sicnum.shtml	<u>Circle One</u> Yes No
5	If you answered NO to question #4 (above), complete and sign the back of the page and return this form with your business license renewal. Nothing more for compliance with SB 205 is required of the business at this time.	
6	If you answered YES to question #4 (above), has the business already obtained an Industrial NPDES Permit?	<u>Circle One</u> Yes No
7	If you answered YES to question #6 (above), provide the requested information regarding the existing Industrial NPDES Permit in the box to the right. Complete, sign the back of the page, and return this form along with a copy of the approved permit with your business license renewal. Providing the required documentation insures that your business is in compliance with SB 205.	WDID # _____ WDID Application # _____ NEC ID# _____ NONA ID# _____

Senate Bill No. 205 Stormwater Discharge Compliance Form

8	<p>If you answered NO in question #6 (above), you need to enroll under the Stormwater Industrial General Permit (IGP). Once you have received an approved permit you MUST provide the City with a copy of the approved permit and permit number(s) as described in question #7 (above).</p> <p>Fill out, sign, and return this SB 205 Compliance Form with your business license application/renewal now to indicate you are working towards getting the approved permit. Start the process of obtaining the Industrial General Permit by contacting the State or Regional Water Board at the information listed below. The City will issue a 3-month provisional business license while you obtain the IGP and report the permit number(s) to the City.</p>

NOTICE TO APPLICANTS FOR BUSINESS LICENSES AND COMMERCIAL BUILDING PERMITS:

Under federal and state law, compliance with disability access laws is a serious and significant responsibility that applies to all California building owners and tenants with buildings open to the public. You may obtain information about your legal obligations and how to comply with disability access laws at the following agencies:

CERTIFIED ACCESS SPECIALIST INSPECTION SERVICES

Compliance with state and federal construction-related accessibility standards ensures that public places are accessible and available to individuals with disabilities. Whether your business is moving into a newly constructed facility or you are planning an alteration to your current facility, by engaging the services of a Certified Access Specialist (CASp) early in this process you will benefit from the advantages of compliance and under the Construction-Related Accessibility Standards Compliance Act (CRASCA, Civil Code 55.51-55.545), also benefit from legal protections.

Although your new facility may have already been permitted and approved by the building department, it is important to obtain CASp inspection services after your move-in because unintended access barriers and violations can be created, for example, placing your furniture and equipment in areas required to be maintained clear of obstructions. For planned alterations, a CASp can provide plan review of your improvement plans and an access compliance evaluation of the public accommodation areas of your facility that may not be part of the alteration.

A CASp is a professional who has been certified by the State of California to have specialized knowledge regarding the applicability of accessibility standards. CASp inspection reports prepared according to CRASCA entitle business and facility owners to specific legal benefits, in the event that a construction-related accessibility claim is filed against them.

To find a CASp, visit www.apps2.dgs.ca.gov/DSA/casp/casp_certified_list.aspx.

GOVERNMENT TAX CREDITS, TAX DEDUCTIONS AND FINANCING

State and federal programs to assist businesses with access compliance and access expenditures are available:

Disabled Access Credit for Eligible Small Businesses

FEDERAL TAX CREDIT—Internal Revenue Code Section 44 provides a federal tax credit for small businesses that incur expenditures for the purpose of providing access to persons with disabilities. For more information, refer to Internal Revenue Service (IRS) Form 8826: Disabled Access Credit at www.irs.gov.

STATE TAX CREDIT—Revenue and Taxation Code Sections 17053.42 and 23642 provide a state tax credit similar to the federal Disabled Access Credit, with exceptions. For more information, refer to Franchise Tax Board (FTB) Form 3548: Disabled Access Credit for Eligible Small Businesses at www.ftb.ca.gov.

Architectural and Transportation Barrier Removal Deduction

FEDERAL TAX DEDUCTION—Internal Revenue Code Section 190 allows businesses of all sizes to claim an annual deduction for qualified expenses incurred to remove physical, structural and transportation barriers for persons with disabilities. For more information, refer to IRS Publication 535: Business Expenses at www.irs.gov.

California Capital Access Financing Program

STATE FINANCE OPTION—The California Capital Access Program (CalCAP) Americans with Disabilities Act (CalCAP/ADA) financing program assists small businesses with financing the costs to alter or retrofit existing small business facilities to comply with the requirements of the federal ADA. Learn more at www.treasurer.ca.gov/cpcf/calcap/.

FEDERAL AND STATE LEGAL REQUIREMENTS ON ACCESSIBILITY FOR INDIVIDUALS WITH DISABILITIES

AMERICANS WITH DISABILITIES ACT OF 1990 (ADA) —The ADA is a federal civil rights law that prohibits discrimination against individuals with disabilities, and requires all public accommodations and commercial facilities to be accessible to individuals with disabilities. Learn more at www.ada.gov.

CALIFORNIA BUILDING CODE (CBC)—The CBC contains the construction-related accessibility provisions that are the standards for compliant construction. A facility's compliance is based on the version of the CBC in place at the time of construction or alteration. Learn more at www.bsc.ca.gov.

Recycling and Organics Recycling Guide for Businesses & Multi-Family Properties in Turlock, CA

MCR: MANDATORY COMMERCIAL RECYCLING (AB 341)

Businesses, including schools and public entities that generate 4 cubic yards or more of commercial solid waste per week (total for trash, recycling and organics) and multi-family properties of 5 or more units, shall arrange for recycling services.

MORE: MANDATORY ORGANICS RECYCLING (AB 1826)

Businesses, including schools and public entities and multi-family properties of 5 or more units that generate 2 cubic yards or more of commercial solid waste per week, shall arrange for organic waste recycling services.

EDUCATING AND INVOLVING CUSTOMERS TO ACHIEVE CALIFORNIA'S RECYCLING GOALS

Effective July 1, 2020, MCR- and MOREcovered businesses must provide organics and recycling containers at front-of-house to collect waste generated from products purchased and consumed on the premises (AB 827, McCarty, Chapter 441, Statutes of 2019). These containers must be placed adjacent to trash containers and be visible, easily accessible, and clearly marked.

AB 827

(CONTINUED)

- This law targets businesses that sell products meant for immediate consumption.
- Full-service restaurants do not have to provide containers for patrons but must provide containers for employees to separate post-consumer recyclables and organics for customers.
- Model signage is available at calrecycle.ca.gov. Search for education/Outreach Toolkit"
